Art Gallery

# COLORIDA

Colorida Art Gallery was founded in 2007. The gallery is located by the Castle of São Jorge in the highest hill of the historic centre of Lisbon, in a building more than 150 years old. Its principal focus is the representation of an international group of contemporary artists whose diverse practices include painting, photography, sculpture and drawing. Embracing artists who are both emerging and established, trained and self taught, Colorida Art Gallery cultivates artist growth and makes a vital contribution to the Europe arts community.

The gallery seeks to provide its artists with a solid podium that achieves both to best present the individuality of their works and to draw attention to the works inherent cultural significance. The gallery has a strong commitment to its artists and has worked with galleries and institutions around the world to establish their careers. Most of its artists have had extensive museum activity, monographs, critical acclaim and important recognition from the international collection community. Colorida Art Gallery assists both beginning and veteran collectors, buying and selling contemporary works of established and emerging artists.

# COLORIDA

A Colorida Art Gallery foi inaugurada em 2007 na Costa do Castelo em Lisboa em um edifício histórico com mais de 150 anos de construção. Com uma área de 300m<sup>2</sup>, possui diferentes espaços expositivos interligados, porém independentes, que facilitam a organização tanto de exposições com trabalhos em grande formato, quanto exposições com carácter mais intimista.

A galeria busca apresentar ao público projetos inéditos, com uma gestão empresarial que valoriza o trabalho do artista exposto. Mais do que um simples espaço expositivo, a Colorida Art Gallery tornou-se uma alternativa à rigidez dos espaços tradicionais de arte de Portugal. A galeria tem como um de seus principais objetivos aproximar artistas e público para ampliar o debate crítico artístico entre ambos. A Colorida busca também promover a pluralidade de linguagens e apresentar uma programação eclética com forte confrontação e experimentação, que caracteriza a arte atual.

«No trabalho da artista dinarmaquesa Lene Hassig Vilslev destacam-se elementos que lembram raízes, com suas reentrâncias e saliências, com suas tramas complexas e formas abstractas. As camadas de cores são combinadas e recombinadas até alcançarem um ponto de equilíbrio. Diante do trabalho de Lene a reação imediata é de liberdade e de oposição a precisão mecanizada da vida moderna. As linhas e os tons adquirem virtudes poéticas e representam a realidade do mundo interior da artista.»

José Roberto Moreira - Galerista e Curador
